

OUR NEW Z-WAVE GATEWAY

Stylish, small and powerful.

Easy to install and use. Connects to WeBeHome cloud service using your existing Internet connection.

Download the free App, and install new devices direct from your phone.

3 months BASIC subscription included with the gateway.

We'll be ing home, wherever you are!

THE MAGIC GATEWAY

The gateway is easy to install and connect in a few minutes. Simply plug the gateway's network cable to your router and then plug in the power. Download our App and it will create a new customer account, pair the new gateway and add a 3 months free BASIC subscription. Then start adding Z-Wave devices from the App. Online documentation are available for our recommended devices.

Each gateway controls up to 232 Z-Wave devices. Multiple gateway can be connected to each site. Multiple sites can be added for each customer. The gateway software is auto upgraded to new versions. CE-approved. Dimension 110x110x19 mm. EU area 868x Mhz.

THE LOW COST POWERFUL CLOUD SERVICE

The gateway is connected 24x7 to the powerful WeBeHome cloud service. All information and configuration are stored in the cloud accessible for you from your App, Web or via an API wherever you are. The cloud service is like a bridge that makes all connected locations, devices, users etc work like one unit regardless how they are connected. There are free subscriptions which makes your phone become a remote control and there are BASIC and PREMIUM subscriptions which includes a lot of functionality like advanced tasks, notifications, scenarios API's and more.

EVEN MORE FUNCTIONALITY

The gateway is a secure internet bridge for our EN-50131-1 certified alarm systems LS-10/20/30. The WeBeHome service supports direct connected IP cameras. 433.92 MHz devices can be controlled via Telldus Live. X.10 switches are controlled via the LS-10/20/30 alarm system. The gateway has Wi-Fi for future use.

Z-WAVE INFORMATION HG2 Plus

Z-Wave certification no ZC10-17065637.

<https://products.z-wavealliance.org/products/2438>
